

# Guidelines on payment method at SHE'S Plastic Surgery Clinic

**This is the main skin care program of She's Plastic Surgery.**

We have combined the most preferred procedures into one program. You can get the most effective treatments for every skin concern.

**You can use any payment methods that are convenient for you.**

The price does not change regardless of the payment method with card or cash. When paying with cash, a cash receipt is issued. You can make a payment in the most convenient way for you.

**All procedures include 10% of additional tax.**

All procedures for cosmetic purposes are subject to additional tax. VAT is a tax paid to the country. It is not the profit of medical institutions. Only international patients can receive a VAT refund on their medical expenses.

**A reservation deposit policy is applied at She's Plastic Surgery Clinic.**

To confirm the treatment date, we receive a reservation deposit. The deposit amounts to 10% of the overall treatment cost.

**It is important and necessary to keep the treatment date and time.**

In case you wish to cancel the reservation or change the treatment date, make sure that you inform us at least 3 days before the treatment. Any changes or cancellation made 2 days before the reservation date leads to the penalty fee. Also, when the reservation is cancelled on the treatment date, the deposit is not refunded.
